1 · Who we are

LawCrust is one of its kind: a next-generation, tech-enabled legal consulting company, and a public limited company (LawCrust Global Consulting Ltd), serving businesses across India and abroad. 10+ years on: 10,000+ clients served across 19+ offices in 7 countries. We don't stop at the statute: our subject-matter experts peep beyond the legal frame, into the commercial, financial, and operational sides of your problem, to bring you solutions, not just opinions. Engagements run under signed engagement letters with defined SLAs, single-window reporting, and strict confidentiality controls.

2 · How we work

70+ advocates, one window

We are a set of more than 70+ advocates across India. You deal with a single engagement desk: briefs, escalations, and reporting flow through one window, never a chase across individual lawyers.

Retainers start at ₹50,000/- monthly

Our minimum retainer starts at ₹50,000 per month, scoped to your documentation, advisory, and litigation load. You see the proposal, with deliverables, SLAs, and pricing, before you commit a rupee.

Beyond the legal frame

As a next-generation firm we staff subject-matter experts from finance, technology, and industry, who look past the statute to the business problem underneath, and solve for that.

Confidential by rule

In line with Bar Council of India rules and the NDAs we sign, we do not disclose the names of our advocates or our clients, in this brochure or anywhere else. Capability is shown by structure and scale, never by dropping names.

3 · Service lines

Corporate Counsel

External General Counsel for enterprises, contracts, governance, compliance, and commercial dispute prevention. (M&A, restructuring, and IBC consulting now live at Solvencis.)

Document Drafting & Vetting

Commercial contracts, regulatory opinions, and portfolio-scale vetting that turn business intent into enforceable obligation.

Litigation Management

Single-window strategy and oversight for enterprise disputes that span jurisdictions, courts, and quarters.

Legal Risk & Advisory

Pre-emptive risk diagnostics, compliance audits, and crisis-response retainers. The work that prevents the lawsuit.

5 · ALSP delivery model: law-firm judgement, ALSP economics

Document Review & e-Discovery

Analysis of large data sets for litigation, regulatory investigation, and internal review. ECA, first-pass, and second-pass review at scale, with reviewer teams sized for the volume.

Contract Lifecycle Management

Drafting, negotiation, abstraction, and management of contracts at portfolio scale, integrated with your CLM system or run standalone on ours.

Managed Services

End-to-end ownership of recurring legal processes, regulatory compliance, document review, and litigation support, run as an outcome-priced managed service.

Flexible Legal Staffing

High-skill attorneys and paralegals on demand, for fixed-duration projects, secondments, and capacity surges. Vetted, jurisdiction-qualified, ramp-ready.

Legal Technology & Software

Tools and integrations that automate the work that does not need a senior lawyer, deployed alongside the people who run them so the technology actually pays back.

6 · Add-ons from The LawCrust Group
