Strategy: One Platform, Eight Brands

The group's stated direction (aspirational; see Important Notice)

1	**Sharply positioned brands**	Each brand addresses one clearly defined customer problem: business counsel, personal matters, subscriptions, claim finance, protection, firm growth, family decisions and compliance documents.
2	**Shared platform underneath**	The group's direction is to operate common infrastructure, customer identity, billing, matter records, professional network and technology, beneath the brands, so each customer is recognised as one customer.
3	**Recurring relationships first**	Subscriptions and protection plans are designed to convert episodic legal needs into continuing relationships, with premium and dispute work available when needed.
4	**Cross-brand journeys**	A client may enter through any brand and be served across the group, for example from a Vetted policy to a LegalProtect360 plan, or from a claim assessment to FundMyCase.
5	**Disciplined, compliance-led growth**	Expansion is pursued within the regulatory framework applicable to legal services, litigation finance and technology in each market the group serves.
