

PRESS RELEASE

Eaccess Telemedics Pvt Ltd Engages LawCrust Global Consulting Ltd. to Optimise Remote Patient Monitoring Solutions and Drive Global Expansion

Mumbai, India – September 11, 2025 – Eaccess Telemedics Pvt Ltd, (ETMPL) a pioneering company in the healthcare arena, to transform and provide healthcare facilities at the remote places within India and Globally, today announced it has engaged LawCrust Global Consulting Ltd., a prominent hybrid management consulting firm, to advise on its growth and expansion strategy. This engagement, formalised by a Consulting Services Agreement, signifies a crucial step for Eaccess Telemedics as it seeks to consolidate its business streams and accelerate its global growth.

Founded almost half a decade ago by two veteran Anesthesiologists and intensive care specialists, of international repute, and Information Technology technocrat, Eaccess Telemedics is led by its directors: Dr. Krishna Prasad Mulavisala, Dr. Ravi Chandra Raya Srinivasa, and Mr. Satya Dev Adurti. The company was established in 2019 after two years of intensive research on tele-monitoring and healthcare digitisation without geographical boundaries. Its technology allows patients to be monitored anywhere, anytime in the world and connected to specialist doctors located at a command center, that is available 24x7. As of 2025, Eaccess Telemedics has achieved profitability and is now positioned to prepare for future funding rounds.

Eaccess Telemedics offers a comprehensive landscape of services, providing end-to-end solutions across various healthcare verticals. These include:

- **Home Monitoring:** Proactive care at home (for cardiac, post-operative discharge, and post-COVID patients), with 24/7 medical support and advice.
- **Tele ICU:** Provides Tele-ICU solutions in ER, MICU, SICU, and CCICU by providing a technology platform that integrates bedside monitors, syringe pumps, and ventilators.
- **Remote Patient Monitoring:** Provides continuous patient monitoring in wards or private rooms to ensure proactive patient condition monitoring.
- **Ambulance Monitoring:** Provides monitoring of patients during transit in the ambulance.
- **e-OPD Clinics:** Provides remote OPD solutions for hospitals to run online OPDs for distant patients.
- **Intensive Care Outsourcing:** Provides management of Intensive care services at hospitals (ER, MICU, SICU, CCICU and OT).

LawCrust Global Consulting has been engaged to help Eaccess Telemedics become ready for funding rounds and fill any strategic gaps. Under the terms of the consulting agreement, LawCrust will provide a range of strategic advisory services to Eaccess Telemedics. The scope of services includes advising on the company's fundraising strategy and readiness, assisting with the development of investor-facing collateral, and providing support for investor identification, outreach, and engagement. LawCrust will also provide transaction advisory services, including guidance on term sheet negotiation and strategic positioning for investor relations.

"We are excited to engage LawCrust Global Consulting Co. as we embark on this exciting phase of growth and innovation," said Mr. Satya Dev Adurti, Founder Director, Eaccess Telemedics Pvt Ltd. "Their profound expertise will be instrumental in helping us achieve our mission of making critical care accessible to more patients globally. We are confident that their guidance will enable us to consolidate our strengths, embrace advanced technologies, and secure the necessary resources for our ambitious expansion plans."

Mr. Ninad Koyande, Business Associate & Investment Banking, LawCrust Global Consulting Ltd. commented, "LawCrust Global Consulting Co. is pleased to be advising Eaccess Telemedics (ETMPL), a company that is truly making a difference in critical care. We are committed to applying our strategic insights and deep industry knowledge to help them not only scale their transformative remote monitoring solutions but also to build a resilient and technologically advanced healthcare digitisation framework for sustainable global growth. We look forward to a productive engagement that will help redefine digital healthcare access worldwide."
